ProShake Plus® Madera Shake

All-Weather Terracotta

Faux Mission Installation with All-Weather Terracotta Flashed

PROSHAKE PLUS®

ProShake combines the esthetics of a traditional wood shake roof with the superior performance, durability, color fastness, Class "A" fire rating, and life of natural clay. Weighing less than 600 pounds per square, ProShake was specifically designed for the wood shake replacement market. Backed by an unsurpassed lifetime warranty with additional no-fade protection, ProShake Plus can be installed anywhere without concern for freeze-thaw conditions, salt intrusion, or attacks by insects. ProShake Plus delivers the aesthetics of a wood shake roof with the features and benefits only true clay products can offer.

ONE-PIECE S TILE

The modern design of our One-Piece Mission S Tile combines the cap and pan of a traditional two-piece system into a single piece, delivering the same traditional aesthetics using fewer tiles, saving cost and installation time. Made from all-natural clays and kiln-fired colors, our One-Piece Mission S Tile products are true to their roots, allowing custom roofscape options such as boosting, while delivering the rich beauty and durability of clay.

FAUX MISSION INSTALLATION TECHNIQUE

Combining the old-world aesthetics of a traditional Two-Piece Mission Tile profile with the cost saving features of modern One-Piece Mission S Tile, US Tiles' unique Faux Mission installation technique enhances the curb appeal of any project while minimizing cost. The technique is made possible by integrating our Two-Piece Mission Tile at the eaves with our One-Piece Mission S Tile in the field. The result is a leading edge that has a traditional old-world look that seamlessly transitions into our affordable One-Piece Mission S Tile in the field.
