

Patented Design Features:

- Leading edge tab secures every tile to drastically improve wind performance.
- Snap-fit tile creates built-in rain gutter.
- Self aligning feature reduces installation time and assures consistent installation.
- Reduce material needed, shrinking the carbon footprint and delivers outstanding value.

Bellaforté[®] by DAVINCI

Bellaforté roof tiles, a new eco-friendly way to beautify and enhance the value of any structure with the look of authentic natural slate.

Bellaforté roof tiles offer property owners the same quality, value and 50 year warranty they have come to expect from DaVinci Roofscapes, while the self aligning roof tiles enable fast installation and precise placement. Bellaforté is not only durable but beautiful enough to protect and enhance the value of your most prized possession.

DaVinci VariBlend[™]

A natural look with varying shades from tile to tile create Bellaforté Slate color blends that improve the realism and the aesthetic. VariBlends are available in Verde with varying hues of green and Villa which uses multiple shades of gray to provide the classic slate look.

DaVinci EcoBlend[®] cool roof colors as well as custom colors are also available.

Sustainable Start to Finish:

Like every DaVinci product Bellaforté has a 50 year warranty which is our commitment to reduce your carbon footprint, save you time and money for maintenance and protect your investment. Because Bellaforté tiles use 25% less material than comparable synthetic tiles they weigh less which lowers the carbon emissions associated with production and transportation. You can also reduce your annual heating & cooling costs when you use DaVinci EcoBlend® cool roof colors. Finally you can help to reduce future landfill loading at the end of the life of your DaVinci roof because the tiles can be recycled at our factory.
